

A modern corporate Intranet designed for communication success and to drive employee engagement.

Employees

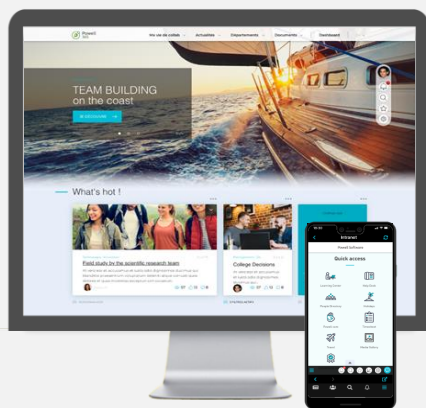

HR & Comms

### Attractive

Successful and impactful communication relies on an appealing experience

### Simple

Easy access to corporate information, resources and business applications to improve the way people work

### Inclusive

Everyone should get access to information and be part of the experience, from field workers to office workers

### Engaging

Engage people in the company goals and culture through motivating content & gamification

## Tailored and scalable for contributors

### Ready-to-use

A rich catalog of templates for day-to-day activities : onboarding, employee advocacy, company news, desk booking...) and many more. Accelerate the time-to-value of your Intranet

### Customizable, scalable & open

Our core engine makes it easy to customize, deploy and update at scale with your evolving needs, even for multi-lingual organizations. Connect your 3<sup>rd</sup> party apps (ServiceNow, Workday, SAP...)

### Based on Microsoft 365

IT managers can rely on Microsoft security, modern experience and updates. Maintain it and natively connect Office 365 services with no costly custom developments

#### 1 In your browser

Company resources and corporate information are accessible anywhere, at anytime from your PC

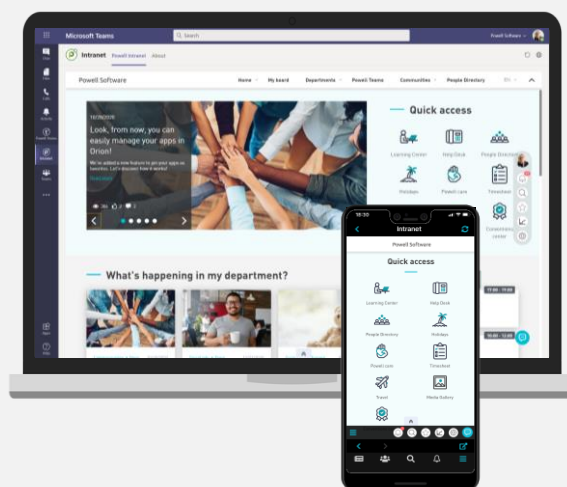

#### 2 In Microsoft Teams

Bridge your Intranet in Teams. Take advantage of its centrality to maximize employee engagement

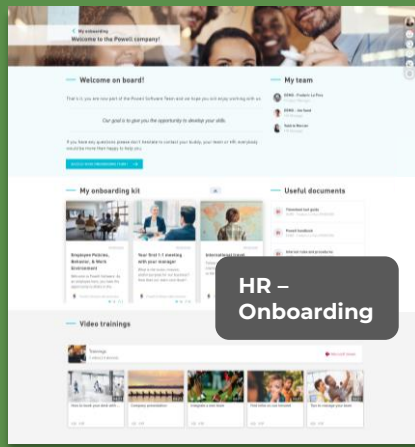

#### 3 On the go & on the field

Access your intranet resources and information across any device with a mobile application, even for field workers non equipped with Office 365

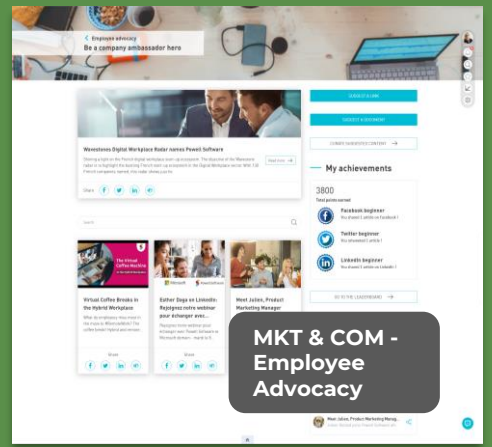

Everywhere employees need it

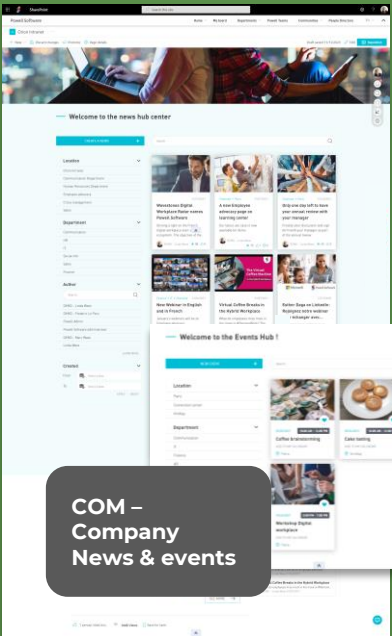

For all departments activities

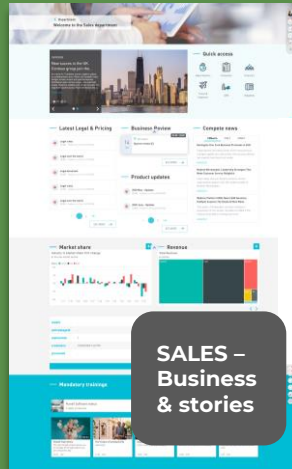

HR – Onboarding

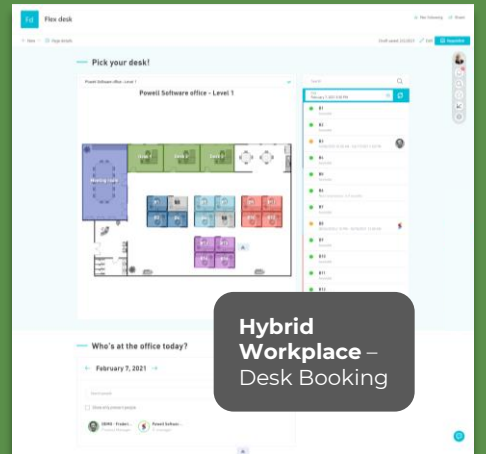

MKT & COM – Employee Advocacy

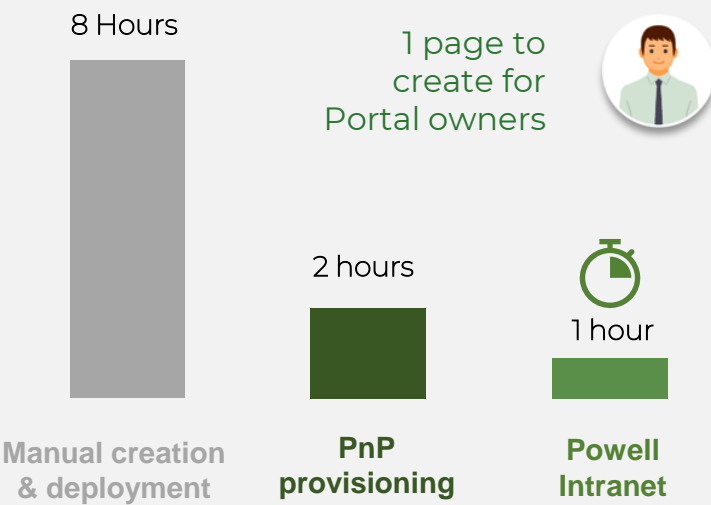

COM – Company News & events

SALES – Business & stories

Hybrid Workplace – Desk Booking

We quickly implemented more modern and truly global tools for communicating and sharing information.
